

WALLPAPERS

for computers and tablets

Let's get started!

Below are simple instructions to help you choose and set up your new wallpaper.

WHAT'S INCLUDED?

Inside your download, you'll find multiple sizes of your wallpaper to fit different computers, laptops and tablets:

- **2560 × 1440 (16:9)** – Best for most computers & laptops
- **1920 × 1200 (16:10)** – Best for MacBooks & some computers or laptops
- **2048 × 1536 (4:3)** – Best for iPads & tablets

WHICH SIZE SHOULD I USE?

If you're unsure which size to choose, we recommend starting with the **2560 × 1440 (16:9)** version. It works well on most computers and laptops and can be adjusted in your display settings if needed.

- **Most computers & laptops:** Try 2560 × 1440 (16:9)
- **MacBooks & some computers or laptops:** Try 1920 × 1200 (16:10)
- **iPads & Some Tablets:** Use 2048 × 1536 (4:3)

WHICH FILE SHOULD I USE?

Each file name includes the wallpaper name followed by the screen resolution at the end. Simply choose the file that best matches your device or preferred screen size. For example:

- **ZiNGAMi - Infinity Bold Circle - 2560x1440.jpg** - Best for most computers and laptops (16:9).
- **ZiNGAMi - Infinity Bold Circle - 1920x1200.jpg** - Best for many MacBooks and some laptops (16:10).
- **ZiNGAMi - Infinity Bold Circle - 2048x1536.jpg** - Best for iPads and tablets (4:3).

HOW TO SET YOUR WALLPAPER

On Windows PC or Laptop

1. Locate where you saved your new wallpaper (typically in your Downloads folder or a custom folder).
2. Right-click on the image and select “Set as desktop background”.
3. If needed, right-click on the desktop, go to Personalize > Background, and adjust the fit.

Tip: If you can’t find your file, check your **Downloads folder**—this is the default location for most browsers.

On MacBook or iMac

1. Locate where you saved your new wallpaper (typically in your Downloads or Pictures folder).
2. Right-click on the image and select “Set Desktop Picture”.
3. Or, open System Settings > Wallpaper, click “Add Image,” and choose your wallpaper file.

Tip: If you can’t find your file, check your **Downloads folder**—this is the default location for most Mac browsers.

On iPad or Tablet

1. Locate where you saved your new wallpaper (this might be in your Files app or Photos).
2. If needed, open the Files app, find the wallpaper, and tap Share > Save Image to move it to Photos.
3. Open the Photos app, select the image, and tap Share > Use as Wallpaper.
4. Adjust and tap Set □ Choose Home Screen, Lock Screen, or Both.

Tip: If you can’t find your file, check the **Downloads folder** in the **Files app**—this is the default location for most iPads.

HOW TO RESIZE (IF NEEDED)

If the wallpaper doesn’t fit perfectly:

- Use your wallpaper settings to adjust the size.
- Try “Fill,” “Fit,” or “Stretch” options when setting the wallpaper.
- Resize the image using Canva, Photoshop, or any free image editor.
